

## Neck-Amphora with Funerary Scene

### Date

c. 350-325 BCE

### Primary Maker

Boston Ready Painter

### Medium

red-figure ware terracotta with added white and yellow

### Description

Campanian form of neck-amphora. The lip is chamfered. Long, narrow neck, body, and stem. The handles are four-reebed. The stem flares; incised groove on center of foot. On the neck, debased tongues; interior of handles are reserved. Worn scroll on shoulder. A reserved line separates the shoulder from the body. Under each handle is a palmette ornament. A continuous wave pattern encircles the entire lower body. The lower body and foot are black, with reserve lines at attachment of stem and body and halfway down stem.

### Dimensions

7 3/8 x 19 7/16 in. (18.7 x 49.4 cm)
